

**Sonic Innovations** is a global provider of superior hearing solutions. We are passionate about quality, technology, and improving lives through enhanced hearing. We are dedicated to the growth and success of our hearing-healthcare partners.

Headquartered in Salt Lake City, Utah, Sonic Innovations has international offices and manufacturing centers across the globe. In conjunction with our distributor partners, we have provided hearing care services and solutions in more than 25 countries.

Sonic Innovations' partners have prescribed more than 1,000,000 Sonic hearing instruments.

SONIC | Endura

**Endura**<sup>™</sup> The power to keep up  
with your hearing needs.  
Super Power BTE

Power up trusted technology from Sonic Innovations.

More than 1 million patients have chosen Sonic Innovations hearing instruments because of their exceptional sound—and now that quality is amplified even more. The Endura Super Power BTE powers up a new level of amplification to give people with severe to profound hearing loss just the boost they need.

The Endura Super Power BTE is a behind-the-ear instrument with both your lifestyle and power amplification in mind. Endura is designed to deliver not just high-level output, but high-quality sound. With the muscle of Sonic Innovations technology behind Endura, you can have a powerful hearing experience.

Crank up the advantages of **Endura**.

The power to do more.

Endura generates its powerful abilities from the heritage of Sonic Innovations digital technology. Our industry-recognized family of products is changing the way more than 1 million people around the world experience sound. Endura can do it for you, too.

**Super Output** Not all behind-the-ear (BTE) devices are equal. Unlike some BTEs that focus on just a few peak hearing frequencies, the Endura Super Power BTE delivers exceptional sound, providing amplification across all frequencies.

**Super Sound** Receiving high-quality sounds can make a difference in your hearing experience. That's why Endura isn't just amplification, it's a balanced hearing solution. With our sophisticated directionality and feedback control, Endura processes the most natural sounds possible.

**Super Features** Sonic Innovations hasn't forgotten your lifestyle, either. Endura comes in 6 different colors to create the look you want. The battery door and memory switch are designed for easy access and use. Endura even comes with integrated Direct Audio Input (DAI) which makes it simple for you to connect a wireless FM receiver or MP3 player and get Bluetooth connectivity when paired with our sonicBLU accessory.
